## **MoDOT's Motor Carrier Services Urges Customers to Check Interstate Operating Authority**

A data system problem encountered by the Federal Motor Carrier Safety Administration has caused some carrier's interstate operating authority to mistakenly be rendered invalid or have other informational errors. This affects carriers nationwide.

Because of this data system problem, if you have a vehicle operating under your authority stopped by a roadside enforcement officer, your operating authority could show to be invalid, causing your vehicle to be placed out of service.

MCS urges carriers to check the status of your interstate operating authority at [www.safersys.org](http://www.safersys.org) under the Licensing and Insurance tab, or at [www.fmcsa.dot.gov](http://www.fmcsa.dot.gov).

If you discover your authority has been affected or if you have questions regarding your authority, contact FMCSA at 1-866-637-0635.

You may also call MoDOT's Motor Carrier Services at 1-866-831-6277 and check the website at <http://www.modot.org/mcs/index.htm> for updated information.

*Our mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri.*
